JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

The British steamship *E. O. Saltmarsh*, arrived from Manzanillo, Cuba, and bound for Pensacola, was inspected by this office and all found well on board.

The British schooner *Doris M. Pickup*, from Gulfport, Miss., and bound for the same place, was fumigated by this office on April 10 prior to sailing. The American schooner *Clara A. Phinney*, from Mobile, which cleared for the same port on April 11, was fumigated by this office prior to departure; and the British brig *Reynard*, from Mobile, bound for same port, was inspected and fumigated by this office. The temperatures of all the crews were found to be normal.

The Spanish steamship *Juan Forgas*, from Manzanillo and bound for New Orleans, had 2 of her crew landed at this port in good health, and 2 steerage passengers in transit for New Orleans, also in good health.

Report from Habana—Inspection and fumigation of vessels—Sanitary conditions good.

Passed Assistant Surgeon Stansfield reports, April 15:
Week ended April 13, 1907:

Vessels inspected and bills of health issued.....	18
Vessels not inspected and bills of health issued.....	10
Crew of outgoing vessels inspected.....	828
Crew of outgoing vessels not inspected.....	800
Passengers of outgoing vessels inspected.....	745
Passengers of outgoing vessels not inspected.....	44
Vessels fumigated prior to sailing.....	4

No further cases of yellow fever have been reported from Nueva Paz. The sanitary department still has its mosquito brigade at work at that point. The sanitary condition of Habana remains fairly good.

Report from Matanzas—Inspection of vessels.

Acting Assistant Surgeon Nuñez reports, April 16:

Bills of health issued to 8 vessels leaving for United States ports; 4 certificates of protection from smallpox issued at the request of passengers going to Tampa, Fla., by way of Habana. Of these passengers 3 were vaccinated at this office.

No sailing vessel left this harbor for any of the southern ports of the United States and no fumigation was performed.

Reports from Santiago—Inspection of vessels.

Acting Assistant Surgeon Wilson reports, April 9 and 16:

Week ended April 6, 1907. Bills of health issued to 5 vessels bound for the United States. No vessel was fumigated.

No quarantinable disease reported.

Week ended April 13, 1907. Bills of health issued to 11 vessels bound for the United States. No vessel fumigated.

No quarantinable disease reported.
